## **DT Whole School Planning Suggested Activity – Build a Bug Hotel**

Your task in DT this week is to make a bug hotel.

### Step 1 - Research:

Talk to an adult about where you think bugs like living best and why.

If possible, have a look around your garden to see which minibeasts are living there. Talk about what makes the perfect place for minibeasts to live and why? When you are next on a walk, have a look at where the mini beasts are hiding here. Are they in similar places? Talk about your findings with an adult.

Early Years and KS1: Complete 'Minibeast Recording Sheet' to show where each minibeast was found.

KS2: Create your own table to show your results from your hunt in your garden/on your walk.

### Step 2 – Collecting Resources:

What natural resources could you collect from around your garden/walk to help build your bug hotel? Have a look at the images provided to give you some ideas.

### Step 3 - Building:

Now that you have a better understanding of where minibeasts like living, you are going to have a go at building your very own bug hotel. Use the images provided to give you some ideas and/or the 'Step by Step Guide' to help you.

Please email in your creations – we would love to see them!
